Education

National Institute of Technology Uttarakhand — Srinagar, Uttarakhand
Bachelor of Technology in Electrical and Electronics Engineering — *Aug. 2023 – May 2027*

Skills

Product: User Research, Market Research, Product Thinking, Requirement Gathering, Agile, Scrum
Analytics: SQL, Excel, Google Sheets, A/B Testing, Metrics (Retention, Activation, DAU/MAU)
Technical: Python, React, Node, REST APIs, Git, LLM Workflows, Prompt Engineering

Experience

Udhi Technologies — Remote
Product Research Intern (AI + EdTech) — *Aug. 2026 – Present*

- **Market Analysis:** Conducted competitor and market research across AI/EdTech products focused on the UK GCSE education market.
- **Hypothesis Validation:** Validated core product assumptions through user research, delivering evaluation frameworks to guide strategic roadmap decisions.
- **Cross-Functional Collaboration:** Partnered directly with engineering and product teams to translate research insights into actionable feature requirements.

Uttarakhand Power Corporation Limited (UPCL) — Dehradun, Uttarakhand
Summer Trainee – IT, SCADA & ERP — *Jun. 2025 – Jul. 2025*

- **Process Optimization:** Analyzed operational workflows across SCADA and ERP infrastructure to remove system bottlenecks and optimize internal data flows.
- **Requirement Gathering:** Interviewed end-users and regional operators to draft precise technical specs, improving system clarity for engineering updates.
- **System Evaluation:** Evaluated enterprise software implementations to improve reliability and data accuracy across operations.

Eshway — Mumbai, Maharashtra
Product & Web Intern — *Mar. 2025 – Jun. 2025*

- **Performance Tuning:** Reduced system latency by **15%** via database indexing and backend optimization.
- **Workflow Automation:** Structured operational data processes to eliminate manual tasks, improving team efficiency.
- **GenAI Integration:** Built automated user feedback tools leveraging OpenAI/Gemini APIs to aggregate insights faster.

Projects & Research

Battledore - Tournament Management Platform [LIVE] | *Product Development & User Experience* — 2025

- **Workflow Analysis:** Identified key friction points in manual tournament organization to establish the core product vision.
- **UX Redesign:** Streamlined onboarding and scheduling workflows, reducing user setup time from 2 hours to **under 10 minutes**.
- **MVP Launch:** Developed an automated bracket creation MVP to eliminate manual coordination overhead.

Eshway Workflow Optimization Case Study | *Product Operations & Process Improvement* — 2025

- **UX Optimization:** Cut profile update friction by redesigning navigation, reducing user interaction from **7 steps to 3**.
- **API Specifications:** Defined REST API documentation for user profile endpoints, lowering overall API error rates by **25%**.
- **Dashboard Redesign:** Simplified key dashboard features, cutting required clicks by **50%**.

Course Selling Platform Backend [GitHub] | *Product Architecture & System Design* — 2024

- **Platform Design:** Built scalable backend infrastructure covering course management, user enrollment, and auth flows.
- **Role-Based Access Control:** Implemented fine-grained RBAC mechanisms to prevent unauthorized user operations.
- **Schema Optimization:** Designed normalized database schemas that reduced query execution latency.

Achievements

- Ranked in the **Top 300** (Top **0.5%**) in the Indian Olympiad Qualifier in Mathematics (IOQM) 2020.
- Received **Intern of the Month (April 2025)** and formal LOR for high operational impact at Eshway.
